

JAI KUMAR VIDHANI

Aspiring AI/ML Engineer

PROFESSIONAL SUMMARY

I am a 2nd-year B.Tech AIML student building a strong foundation in programming and data-driven problem solving. I am actively developing my skills in Python and SQL, and taking on practical challenges to accelerate my growth in AI/ML.

Open to learning opportunities

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning

GLA University

2025 – Present

First-Year CPI: 8.42

Higher Secondary (12th, PCM)

Maheshwari International School (CBSE)

Graduated 2025 · 83.6%

Secondary School (10th)

Maheshwari International School (CBSE)

Graduated 2023 · 78.2%

TRAINING & EXPERIENCE

Microsoft Azure AZ-900 Training

Microsoft Azure Fundamentals / AZ-900

Duration: 26 February – 22 May

Cloud-focused professional certified, with a strong understanding of cloud architecture, core services, security governance, and cost optimization.

Bootcamp & Skill Credit Assessment

Focus: Skill Credit Assessment

Duration: June – July 2026

Accelerated my engineering foundation through an intensive summer bootcamp focused on core Machine Learning architectures and modern backend integration. Engineered a data-driven Sales Dashboard by managing databases and executing end-to-end API testing workflows.

CERTIFICATIONS

Oracle Agentic AI Certified Foundations Associate · Aug 2026 – Aug 2028

- Learned the fundamentals of agentic AI – how autonomous AI agents plan, reason, and take action.
- Built understanding of Oracle's AI/GenAI service ecosystem and how agentic workflows are designed.

Microsoft Azure Fundamentals (AZ-900) · May 2026

- Completed a 2-month structured training program on Azure fundamentals through GLA University.
- Learned core cloud concepts (IaaS/PaaS/SaaS), Azure services, pricing, and security fundamentals.

Build a Computer Vision App with Azure Cognitive Services · Aug 2026

- Used the Azure Cognitive Services Computer Vision API to analyze and extract insights from images.
- Learned to integrate cloud-based AI APIs into an application and handle image-processing workflows.

AI for All – TCS iON · Apr 2026

- Learned foundational AI concepts, ethics, and how AI is applied across real-world industries.
- Understood the societal impact and responsible use of AI in everyday applications.

PROJECTS

NoteGenius AI

Developed an intelligent study assistant to enhance learning efficiency and knowledge retention. The application automatically generates interactive flashcards, produces concise summaries of study notes, and builds custom quizzes to test comprehension.
